SHOE SIZING CHART

Age (approx.)	Size	Euro	US
18 - 24 months	X-large	25	8
12 - 18 months	Large	22	6
6 - 12 months	Medium	20	5
0 - 6 months	Small	18	3

How to measure your infant's foot.

- Place your infant's heel on the baseline below.
- Measure to the top of the longest toe.
- If the longest toe is past the line of a size; it is recommended that you choose the next size up.
- Do not allow too much room for growth as this may become a tripping hazard
- The Age for each size is an approximation only; infant's feet can vary greatly in size.
- US and Euro sizes are an approximate guide.
- **Ensure you do not scale the page when printing.**
